INTERNSHIP

Web Design   May 2023 - Jun 2023
ACMEGRADE   *Navi-Mumbai*

- Profound understanding of front-end and back-end web development technologies.

- Hands-on experience in HTML, CSS, and JavaScript.

- Created diverse websites, including an e-commerce store, landing pages, and a blog page, showcasing practical application of acquired skills.

AGILE DEVELOPMENT   Dec 2023 - Jan 2024
FORAGE-Cognizent   *Navi-Mumbai*

- Analytical proficiency demonstrated by creating a detailed presentation evaluating Agile and Waterfall methodologies.

- Practical application of Agile methodology, including identifying user stories and documenting Scrum role assignments for an interplanetary video-conferencing application.

- Demonstrated problem-solving aptitude by diagnosing and proposing solutions for development process issues encountered during sprints.

PROJECTS

Online Code Editor The Online Code Editor System is a web-based platform supporting multiple programming languages like PHP, Python, Node.js, C, and C++. It offers a unified space for writing, editing, and executing code, featuring syntax highlighting, error checking, and real-time output display.

E-Commerce Store. Crafted an E-commerce website for electronic products, seamlessly blending HTML, CSS, and JavaScript for an intuitive and responsive user interface. Developed an engaging online shopping platform for clothing and mobile phones using HTML, CSS, and JavaScript, ensuring a visually appealing and functional experience

MovieMagic Embark on a cinematic journey with the 'Movie Explorer App,' a work-in-progress project crafted using React.js and Redux Toolkit. Designed with beginners in mind, this user-friendly application introduces the world of web development while harnessing the power of TMDB API for seamless data fetching. **In Progress**
